Sara Jacobs

This one's gonna get spicy, folks. Big time.

*She's the granddaughter of Irwin M. Jacobs, the Co-Founder and former Chairman of Qualcomm and current Chairman of the Salk Institute (vaccines) for Biological Studies.

*Irwin Jacobs serves on the International Advisory Board of Israeli Technion Institute and the Advisory Board of the School of Economics and Management at Tsinghua University in Beijing, China.

*Prior to Co-Founding Qualcomm, Irwin Jacobs Co-Founded Linkabit with Leonard Kleinrock and Andrew Viterbi, and Linkabit is now a division of L3Harris Technologies. L3HARRIS is a government contractor for infiltrative systems within telecommunications and is considered one of the biggest invaders of US CITIZENS' PRIVACY in the world.

💥NOTE: Leonard Kleinrock is the founder of ARPANET (DARPA) and Viterbi is a Director of Scripps Research Institute (COVID/CIA). Viterbi's wife was a "Holocaust survivor".

*Her uncle, Paul E. Jacobs is the current Chairman & CEO of Qualcomm.

*Her FATHER, Gary E. Jacobs is the President of the United Jewish Federation of San Diego County (Mossad).

💥SCARY PART: Since 2019, Sara Jacobs has been in a romantic relationship with Ammar Campa-Najjar, whose GRANDFATHER was a "Palestinian" involved in the 1972 Munich Summer Olympics Massacre as "allegedly" tied to Black September.

Sara Josephine Jacobs (born February 1, 1989) is an American politician serving as the U.S. representative for California's 51st congressional district, previously representing the 53rd congressional district from 2021 to 2023. Her district includes central and eastern portions of San Diego, as well as eastern suburbs such as El Cajon, La Mesa, Spring Valley, and Lemon Grove. A member of the Democratic Party, she is the youngest member of California's congressional delegation.[2] She is the Caucus Leadership Representative, making her the youngest member of the Democratic House leadership.[3]

UC San Diego

UC Presidential Medal: Irwin M. Jacobs and the

irwin jacobs

In 1985, Jacobs went on to co-found Qualcomm Inc. along with Viterbi, Harvey White, Adelia Coffman, Andrew Cohen, Klein Gilhousen, and Franklin Antonio. Qualcomm developed the OmniTRACS system that was deemed one of the world's most "technologically advanced two-way mobile satellite communications and tracking systems". He pioneered these systems which use the communication bandwidth more efficiently than the older fixed time-sliced TDMA technology. Its Code-Division Multiple Access (CDMA) has been adopted as one of two digital standards (the other being Global System for Mobile Communications [GSM]) used in the next generation of cellular telephones in North America at the time. Jacobs announced in March 2009 that he had stepped down as chairman of Qualcomm and that Paul E. Jacobs, his son, would succeed him.[5]

Affiliations

Jacobs was elected a member of the National Academy of Engineering in 1982 for contributions to communication theory and practice, and leadership in high-technology product development. He is also a Fellow of the IEEE.[5] He is a member of the Inter-American Dialogue.[6] He is a chairman on the Salk Institute for Biological Studies, and is on the international advisory board for the Israel Institute of Technology. He is on the advisory board for the School of Economics and Management at Tsinghua University in Beijing. He is on the board of directors of the Pacific Council on International Policy in Los Angeles.[4]

Awards and honors

Irwin Jacobs receiving his honorary doctorate of engineering (honoris causa) from National Tsing Hua University, Taiwan, 2014

Linkabit
Article
Talk
Linkabit Corporation was a computer networking company founded in 1968 by Irwin M. Jacobs, Andrew Viterbi and Leonard Kleinrock. Linkabit alumni have created a large number of technology companies, most notably, Qualcomm.
Linkabit is now a division of L3Harris Technologies and had been part of L-3 Communications, later named L3 Technologies, prior to its merger with Harris Corporation in July 2019.

SAYERET MATKAL and SHAYETET-13

(scarier part)

*Operation Isotope was a May 1972 Operation where Sayeret Matkal “thwarted” a plane

hijacking by “Black September” in Tel Aviv.

*Jonathan Netanyahu (Bibi’s brother) had led anti-terrorist reconnaissance within Sayeret Matkal and soon after Operation Isotope, he became Deputy Commander of that unit.

💥NOTE: 1972 - Founding of Kleiner Perkins, J. Kroll & Associates, Jewish Communal Fund (UJA) and President Nixon meets with Chinese PRC. In June 1972, Jewish Communist Carl Bernstein and Jewish CIA operative Bob Woodward were “assigned” to investigate a “break-in” at the Watergate DNC Headquarters.

*In September 1972, 11 Israeli olympians were taken hostage and then massacred by “Black September”, a group of “Palestinian” and “German” terrorists, at the 1972 Summer Olympics in Munich, Germany.

💥NOTE: Sayeret Matkal was on-site to assist the German police who were leading the “hostage negotiations”, but they (supposedly) did not intervene.

*The following year, in 1973, Operation Wrath of God began as total retaliation for the 1972 Munich Massacre of Israelis by “Black September”.

*Sayeret Matkal Commander, Ehud Barak and Sayeret Matkal Deputy Commander, Jonathan Netanyahu led Operation Spring of Youth in April 1973, which was a joint operation with Shayetet-13 and Mossad, where the terrorists and members of leadership of Black September were assassinated.

*Then, in 1976, Sayeret Matkal, led by Jonathan Netanyahu, conducted Operation Thunderbolt, a successful hostage rescue of 102 of 106 hostages in Entebbe, Uganda.

💥Jonathan Netanyahu, the Commander of the operation, was the ONLY ISRAELI SOLDIER KILLED.

Um, I’m thinking we weren’t told the truth about geopolitical history, folks.

*Fast forward to September 11, 2001, Sayeret Matkal would strike again, with Benjamin Netanyahu, Ehud Barak and Akamai Co-Founder and Principal Architect Daniel Lewin, leading the 9/11 attacks against the United States.

💥Daniel Mark Lewin would later be “rumored” to have been the FIRST CASUALTY of the 9/11 attacks, and having been stabbed to death by Satam al-Suqami, as he attempted to intervene aboard American Airlines Flight 11.

(Not a fucking chance.)

But now, the MAJOR question (and most likely ANSWER) becomes…

Was 1972 Munich Summer Olympics Massacre another 10/7 Hamas attack?😟

Overview

Yonatan Netanyahu was an Israeli military officer who commanded Sayeret Matkal during the Entebbe raid.
Wikipedia ›

jonathan netanyahu

Military career

After graduating high school, Netanyahu joined the Israeli Defense Forces in 1964. He volunteered to serve in the Paratroopers Brigade, and excelled in the Officer Training Course. He was eventually given command of a paratroopers company.[6]

In 1967 he considered college, but the constant threat of war made him stay in Israel: "This is my country and my homeland. It is here that I belong," he wrote. On June 5, 1967, during the Six-Day War, his battalion fought the battle of Um Katef in Sinai, then reinforced the Golan Heights battle.[13] During the Golan Heights battle, he was wounded while helping rescue a fellow soldier who lay wounded deep behind enemy lines. He was decorated for valor after that war.[7]

After being wounded, he returned to the U.S. to study at Harvard University.[12] But after a year he felt the need to return to Israel to rejoin the army. "At this time," he wrote in a letter, "I should be defending my country. Harvard is a luxury I cannot afford."[12] He next returned to Harvard in the summer of 1973, but again gave up academic life for Israel's military.[12]

By 1970 he was leading an anti-terrorist reconnaissance unit, Sayeret Matkal (Israeli special forces), and in the summer of 1972 was appointed as the unit's deputy commander.[7] That year he commanded a raid into Syria named Operation Crate 3, in which senior Syrian officers were abducted and held as bargaining chips to be later exchanged in return for captive Israeli pilots. The following year he participated in Operation Spring of Youth, in which the terrorists and leadership of Black September were selectively killed by Sayeret Matkal, Shayetet-13 and the Mossad.[13]

en.m.wikipedia.org

Operation Spring of Youth

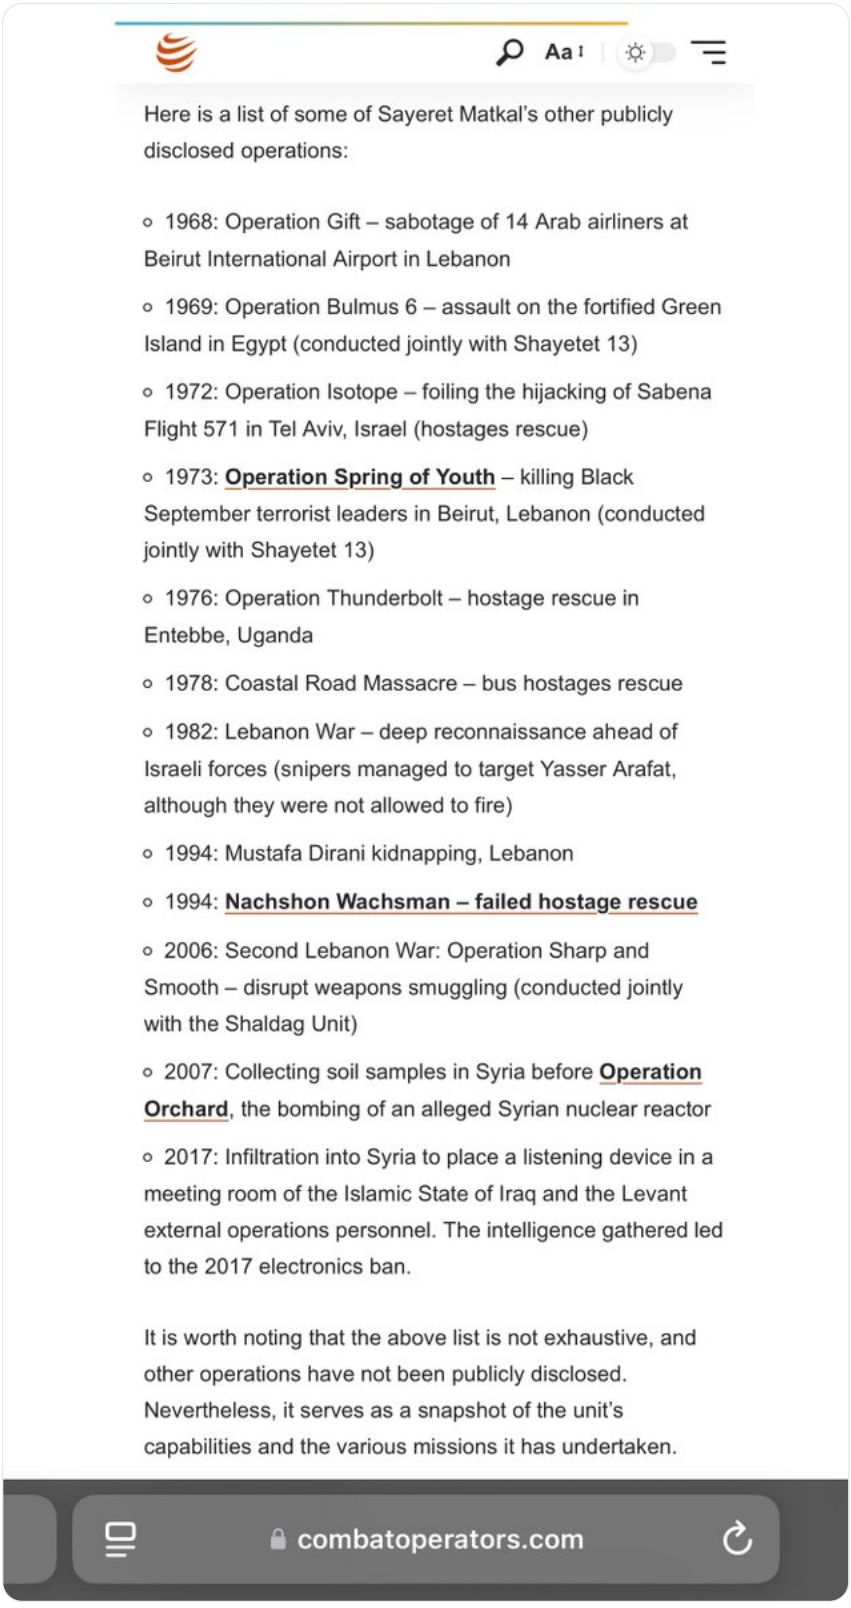
On the night of April 9th-10th, 1973, a team of Sayeret commandos, with one member disguised as a woman, successfully carried out the assassinations of Black September leaders. This operation, known as the Spring of Youth, was notable for its precision and daring. The targets were in three locations, all within the enemy-held territory in West Beirut.

Ehud Barak, a commander of Sayeret Matkal during the Operation Spring of Youth in 1973 (Photo: IDF)

This operation was part of a larger campaign known as Operation Wrath of God, which was a retaliation for the 1972 Munich Massacre. The success of this operation demonstrated the skill and bravery of the Sayeret commandos and their ability to carry out complex operations in hostile territory.

Operation Thunderbolt

In 1974, the Sayeret Matkal executed one of the most renowned hostage rescue missions in history. They stormed



Aa
Here is a list of some of Sayeret Matkal's other publicly disclosed operations:
1968: Operation Gift – sabotage of 14 Arab airliners at Beirut International Airport in Lebanon
1969: Operation Bulmus 6 – assault on the fortified Green Island in Egypt (conducted jointly with Shayetet 13)
1972: Operation Isotope – foiling the hijacking of Sabena Flight 571 in Tel Aviv, Israel (hostages rescue)
1973: Operation Spring of Youth – killing Black September terrorist leaders in Beirut, Lebanon (conducted jointly with Shayetet 13)
1976: Operation Thunderbolt – hostage rescue in Entebbe, Uganda
1978: Coastal Road Massacre – bus hostages rescue
1982: Lebanon War – deep reconnaissance ahead of Israeli forces (snipers managed to target Yasser Arafat, although they were not allowed to fire)
1994: Mustafa Dirani kidnapping, Lebanon
1994: Nachshon Wachsman – failed hostage rescue
2006: Second Lebanon War: Operation Sharp and Smooth – disrupt weapons smuggling (conducted jointly with the Shaldag Unit)
2007: Collecting soil samples in Syria before Operation Orchard, the bombing of an alleged Syrian nuclear reactor
2017: Infiltration into Syria to place a listening device in a meeting room of the Islamic State of Iraq and the Levant external operations personnel. The intelligence gathered led to the 2017 electronics ban.
It is worth noting that the above list is not exhaustive, and other operations have not been publicly disclosed. Nevertheless, it serves as a snapshot of the unit's capabilities and the various missions it has undertaken.

More Sara Jacobs and Yonatan Netanyahu…

*Today, Sara Jacobs sits on the Committee on Armed Services, where she's part of the Subcommittee on Intelligence and Special Operations and the Subcommittee on Seapower and Special Projects.

*Jacobs is also part of the Committee on Foreign Affairs, where she's a member of the Subcommittee on Global Health, Global Human Rights and International Organizations, as well as the RANKING MEMBER on the Subcommittee on Africa.

*Yonatan Netanyahu (Benjamin Netanyahu's brother) is the SON of BENZION NETANYAHU, a PROFESSOR EMERITUS of HISTORY at CORNELL UNIVERSITY (Sanford Weill). He's named after his PATERNAL GRANDFATHER, RABBI NATHANIEL MILEIKOWSKY and COLONEL JOHN HENRY PATTERSON, the COMMANDER of the JEWISH LEGION.

He was a member of the PARATROOPERS BRIGADE in the ISRAELI DEFENSE FORCES.

(Yeah, that's 10/7 all day long, folks.🤦🏻‍♂️😒🤬)

Committee assignments

For the 118th Congress:[31]

- Committee on Armed Services
  - Subcommittee on Intelligence and Special Operations
  - Subcommittee on Seapower and Projection Forces
- Committee on Foreign Affairs
  - Subcommittee on Africa (Ranking Member)
  - Subcommittee on Global Health, Global Human Rights, and International Organizations

Caucus memberships

- Congressional Equality Caucus (Vice Chair)[32]
- Congressional Caucus for the Equal Rights Amendment[33]
- New Democrat Coalition[34]
- Congressional LGBTQ+ Equality Caucus[35]
- Congressional Progressive Caucus[36]
- Medicare for All Caucus[37][38]

Political positions

Co-Sponsored/Sponsored Bills

119th Congress (2025-2026)

- On April 2nd, 2025, Sara Jacobs introduced the following bill to the House "To prohibit the use of, and rescind, Federal funds for United States DOGE Service, and for other purposes.", aiming to defund the DOGE department.[54]
- On January 24th, 2025, Sara Jacobs introduced the following bill to the House "The Disaster Recovery Efficiency Act".[55]
- On February 11th, 2025, Sara Jacobs introduced the following bill to the House "Protect U.S. National Security Act".[56]
- On January 16th, 2025, Sara Jacobs introduced the following bill to the House "Ensuring Military Readiness Not Discrimination Act".[57]

118th Congress (2023-2024)

- On September 25th, 2024, Sara Jacobs introduced the following bill to the House "Restore Military Families' Voices Act".[58]

This bill has failed the House Committee, not being introduced in the House Of Representatives floor.[58]

- On September 18th, 2024, Sara Jacobs introduced the following bill to the House "Global Fragility Reauthorization Act".[59]

This bill has failed the House Committee, not being introduced in the House Of Representatives floor.[59]

117th Congress (2021-2022)

- On September 15th, 2022, Sara Jacobs introduced the following bill to the House "End Veteran Hunger Act of 2022".[60]

This bill has failed the House Committee, not being introduced in the House Of Representatives floor.[60]

Yonatan Netanyahu

Article Talk

Yonatan Netanyahu[a] (Hebrew: יוֹנָתָן נְתַנְיָהוּ; March 13, 1946 – July 4, 1976) was an Israeli military officer who commanded Sayeret Matkal during the Entebbe raid. The raid was launched in response to the 1976 hijacking of an international civilian passenger flight from Israel to France by Palestinian and German militants, who took control of the aircraft during a stopover in Greece and diverted it to Libya and then to Uganda, where they received support from Ugandan dictator Idi Amin. Though Israel's counter-terrorist operation was a success, with 102 of the 106 hostages being rescued, Netanyahu was killed in action – the only Israeli soldier killed during the crisis.

Yonatan Netanyahu

Last known photo of Netanyahu, taken shortly before his death in Operation Entebbe[1]

Native name	יוֹנָתָן נְתַנְיָהוּ
Nickname(s)	Yoni (יוֹנִי)
Born	March 13, 1946 New York City, United States
Died	July 4, 1976 (aged 30) Entebbe, Second Republic of Uganda
Service / branch	Ground Forces
Years of service	1964–1976
Rank	*Sgan Aluf*
Unit	Paratroopers Brigade
Commands	Sayeret Matkal

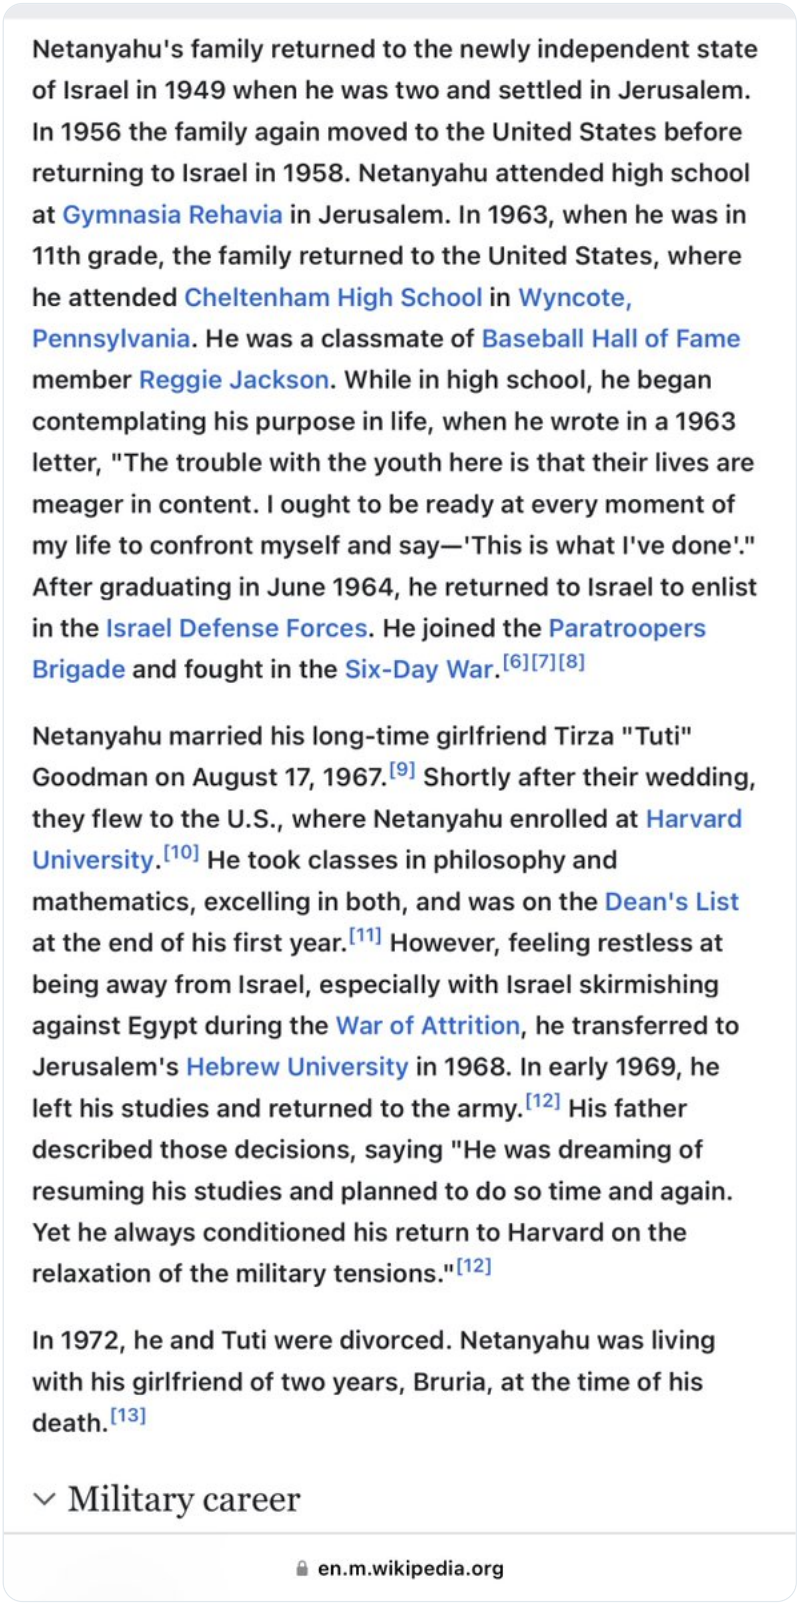
en.m.wikipedia.org

The eldest son of the Israeli professor Benzion Netanyahu and brother of Israeli Prime Minister Benjamin Netanyahu, Yonatan was born in New York City and spent much of his youth in the United States, where he attended high school. After serving in the Israeli military during the Six-Day War, he briefly attended Harvard University before transferring to the Hebrew University of Jerusalem in 1968; soon thereafter, he left his studies and returned to military service in Israel. He joined Sayeret Matkal in the early 1970s and was awarded the Medal of Distinguished Service for his conduct in the Yom Kippur War. After his death, Operation Entebbe was renamed "Operation Yonatan" in his honor.[2] [3]

Background

Yonatan Netanyahu was born in New York City, the eldest son of Tzila (née Segal; 1912–2000) and Benzion Netanyahu (1910–2012), a professor emeritus of history at Cornell University. His mother had been born in Petah Tikva, in what is now Israel, which was then in the Ottoman Empire's Mutasarrifate of Jerusalem, while his father was born in Warsaw and immigrated to Mandate Palestine in 1920. He was named after his paternal grandfather, rabbi Nathan Mileikowsky, and Colonel John Henry Patterson, who formerly commanded the Jewish Legion and attended his circumcision.[4] His two brothers are Benjamin and Iddo. Benjamin was elected Prime Minister of Israel in 1996, in 2009 and reelected in 2013, 2015, 2020 and 2022. Iddo, the youngest of the three, is a radiologist and writer. All three brothers served in Sayeret Matkal.[5]

Netanyahu's family returned to the newly independent state of Israel in 1949 when he was two and settled in Jerusalem. In 1956 the family again moved to the United States before returning to Israel in 1958. Netanyahu attended high school at Gymnasia Rehavia in Jerusalem. In 1963, when he was in



Netanyahu's family returned to the newly independent state of Israel in 1949 when he was two and settled in Jerusalem. In 1956 the family again moved to the United States before returning to Israel in 1958. Netanyahu attended high school at Gymnasia Rehavia in Jerusalem. In 1963, when he was in 11th grade, the family returned to the United States, where he attended Cheltenham High School in Wyncote, Pennsylvania. He was a classmate of Baseball Hall of Fame member Reggie Jackson. While in high school, he began contemplating his purpose in life, when he wrote in a 1963 letter, "The trouble with the youth here is that their lives are meager in content. I ought to be ready at every moment of my life to confront myself and say—'This is what I've done'." After graduating in June 1964, he returned to Israel to enlist in the Israel Defense Forces. He joined the Paratroopers Brigade and fought in the Six-Day War.[6][7][8]
Netanyahu married his long-time girlfriend Tirza "Tuti" Goodman on August 17, 1967.[9] Shortly after their wedding, they flew to the U.S., where Netanyahu enrolled at Harvard University.[10] He took classes in philosophy and mathematics, excelling in both, and was on the Dean's List at the end of his first year.[11] However, feeling restless at being away from Israel, especially with Israel skirmishing against Egypt during the War of Attrition, he transferred to Jerusalem's Hebrew University in 1968. In early 1969, he left his studies and returned to the army.[12] His father described those decisions, saying "He was dreaming of resuming his studies and planned to do so time and again. Yet he always conditioned his return to Harvard on the relaxation of the military tensions."[12]
In 1972, he and Tuti were divorced. Netanyahu was living with his girlfriend of two years, Bruria, at the time of his death.[13]
Military career
en.m.wikipedia.org

FUN FACT 1: Andrew James Viterbi, the Co-Founder of Linkabit and Qualcomm alongside Sara Jacobs's grandfather, was part of the FIRST CITY COUNCIL for the city of WEST HOLLYWOOD, CA, when the city was first incorporated.

Viterbi even served as the MAYOR of WEST HOLLYWOOD, which was the epicenter of

those recent LA FIRES ARSON ATTACKS involving LA MAYOR KAREN BASS (a literal terrorist) and NED, AIPAC and COULSON GROUP… who had the aerial firefighting contracts for Los Angeles County.

FUN FACT 2: Coulson Group CEO, PETER GILLOOLY, works for DARPA as part of the KLEINER PERKINS PORTFOLIO COMPANY, DUST IDENTITY.

Peter Gillooly, CEO of The Wellness Company, is VP of OPERATIONS for Dust Identity.

Andrew Viterbi

Article Talk

Andrew James Viterbi (born **Andrea Giacomo Viterbi**, March 9, 1935) is an electrical engineer and businessman who co-founded Qualcomm Inc. and invented the Viterbi algorithm. He is the Presidential Chair Professor of Electrical Engineering at the University of Southern California's Viterbi School of Engineering, which was named in his honor in 2004 in recognition of his $52 million gift.

Andrew J. Viterbi[1]

Born	Andrea Giacomo Viterbi March 9, 1935 (age 90) Bergamo, Italy
Citizenship	American
Education	Massachusetts Institute of Technology (BS, MS) University of Southern California (PhD)
Spouse	Erna Finci (m. 1958; died 2015)

en.m.wikipedia.org

Institutions	University of Southern California Board of Trustees The Scripps Research Institute Board of Trustees, Sanford Burnham Medical Research Institute
Employer(s)	**Professor:** UC Los Angeles UC San Diego **Founder/Co-founder:** Linkabit Corporation Qualcomm Inc. The Viterbi Group
Projects	Viterbi algorithm
Significant advance	Code Division Multiple Access (CDMA) standard for cell phone networks
Awards	IEEE Alexander Graham Bell Medal (1984) Marconi Prize (1990) Claude E. Shannon Award (1991) Wireless Hall of Fame (2000) National Medal of Science (2007) IEEE/RSE James Clerk Maxwell Medal (2007) Millennium Technology Prize (2008) IEEE Medal of Honor (2010) John Fritz Medal (2011)

Early life

Viterbi was born to an Italian Jewish family[2] in Bergamo, Italy and emigrated with them to the United States two years before World War II. His original name was Andrea, but when he was naturalized in the US, his parents anglicized it to Andrew.[*citation needed*]

Education

Viterbi attended the Boston Latin School, and then entered Massachusetts Institute of Technology (MIT) in 1952, studying electrical engineering. He received both BS and MS in electrical engineering in 1957 from MIT. He was elected to membership in the honor society Eta Kappa Nu in 1956 through the MIT chapter.

He worked at Raytheon and later at Jet Propulsion Laboratory (JPL) in Pasadena, California, where he started working on telemetry for uncrewed space missions, also helping to develop the phase-locked loop. Simultaneously, he was carrying out PhD studies at the University of Southern California, where he graduated in 1963 in digital communications.[3]

en.m.wikipedia.org

Viterbi's problem on the coincidence of PLL ranges

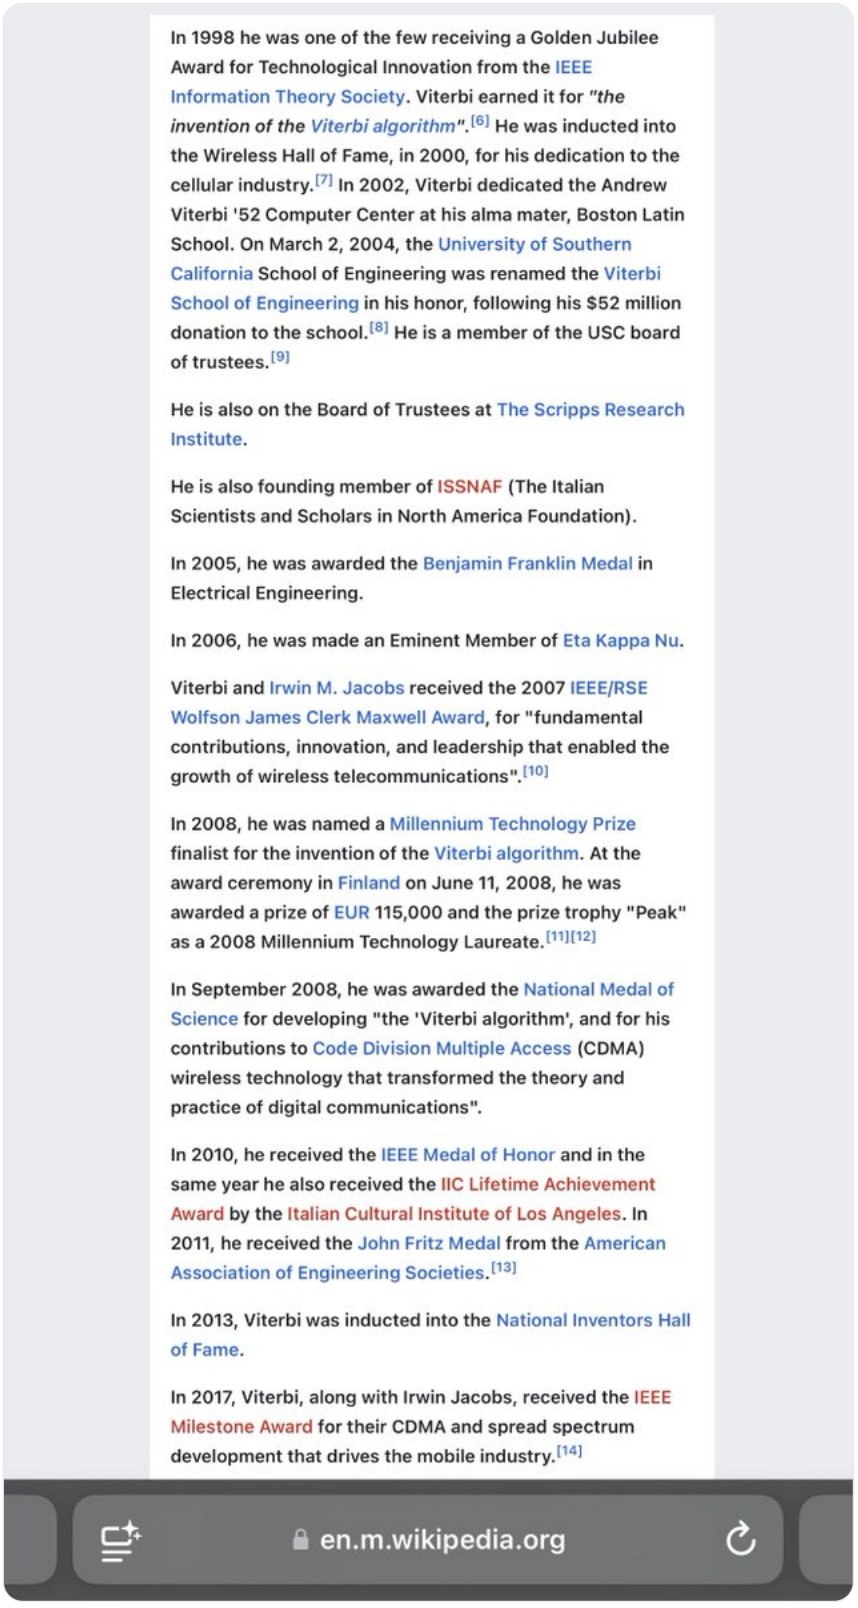
A. Viterbi analytically showed that for the first-order PLL model (filterless model) the three main ranges (hold-in, pull-in, lock-in ranges) coincide.[15]:4–5[16] Various conjectures (e.g., Egan's conjecture on the pull-in range of type II APLL) and estimates of the ranges of higher-order PLL models appeared based on this result, which led to the problem of determining the regions of the physical parameters of the PLL (parameters of the phase detector, filter, and voltage-controlled oscillator) where the ranges coincide (Viterbi's problem on the coincidence of PLL ranges[17]). In the framework of mathematical control theory, this result is a development of the ideas of the possibility of determining the global behavior of a nonlinear system via linear analysis and various well-known conjectures on global stability (Kalman's conjecture and others) for a cylindrical phase space.

Personal life

Viterbi was married to Erna Finci (1934–2015),[18] who was a Jewish refugee from Sarajevo in the former Yugoslavia.[19] Erna was a Holocaust survivor. In 1941, during World War II, the Finci family fled German-occupied Yugoslavia for the Italian-occupied zone from which they were deported and interned in the Parma region of Italy. In 1943, when the Nazis occupied Italy, the family was saved from deportation to extermination camps by the people of Gramignazzo di Sissa, the village where they had been interned; they were cared for by the local Ponghellini family, who hid them in their vineyard when German forces advanced into Italy. Other Italians helped them escape to Switzerland, walking across the Alps, where they waited out the war.

They had three children, Alan Viterbi, Audrey Viterbi,[19] and Alexander Viterbi (who died in 2011 at age 40).[20] Alan served on the inaugural West Hollywood city council in 1984 when the city was incorporated, and served as the city's mayor in 1988.[21] Audrey served as an assistant professor at UC Irvine.[22]

en.m.wikipedia.org



In 1998 he was one of the few receiving a Golden Jubilee Award for Technological Innovation from the IEEE Information Theory Society. Viterbi earned it for "the invention of the Viterbi algorithm".[6] He was inducted into the Wireless Hall of Fame, in 2000, for his dedication to the cellular industry.[7] In 2002, Viterbi dedicated the Andrew Viterbi '52 Computer Center at his alma mater, Boston Latin School. On March 2, 2004, the University of Southern California School of Engineering was renamed the Viterbi School of Engineering in his honor, following his $52 million donation to the school.[8] He is a member of the USC board of trustees.[9]
He is also on the Board of Trustees at The Scripps Research Institute.
He is also founding member of ISSNAF (The Italian Scientists and Scholars in North America Foundation).
In 2005, he was awarded the Benjamin Franklin Medal in Electrical Engineering.
In 2006, he was made an Eminent Member of Eta Kappa Nu.
Viterbi and Irwin M. Jacobs received the 2007 IEEE/RSE Wolfson James Clerk Maxwell Award, for "fundamental contributions, innovation, and leadership that enabled the growth of wireless telecommunications".[10]
In 2008, he was named a Millennium Technology Prize finalist for the invention of the Viterbi algorithm. At the award ceremony in Finland on June 11, 2008, he was awarded a prize of EUR 115,000 and the prize trophy "Peak" as a 2008 Millennium Technology Laureate.[11][12]
In September 2008, he was awarded the National Medal of Science for developing "the 'Viterbi algorithm', and for his contributions to Code Division Multiple Access (CDMA) wireless technology that transformed the theory and practice of digital communications".
In 2010, he received the IEEE Medal of Honor and in the same year he also received the IIC Lifetime Achievement Award by the Italian Cultural Institute of Los Angeles. In 2011, he received the John Fritz Medal from the American Association of Engineering Societies.[13]
In 2013, Viterbi was inducted into the National Inventors Hall of Fame.
In 2017, Viterbi, along with Irwin Jacobs, received the IEEE Milestone Award for their CDMA and spread spectrum development that drives the mobile industry.[14]

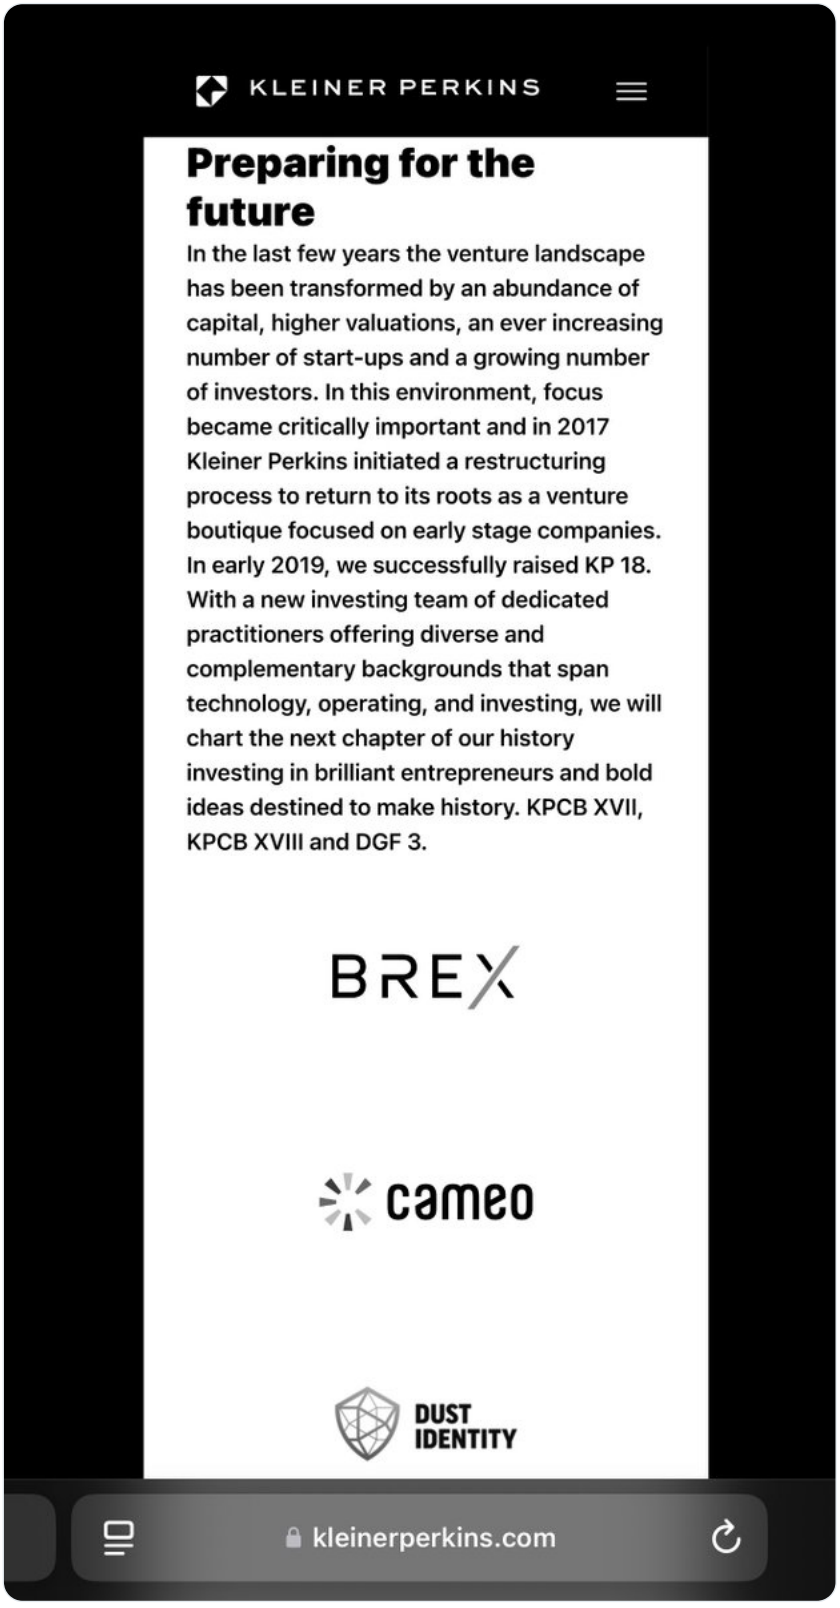
Here’s those Peter Gillooly receipts, folks.☐



KLEINER PERKINS
Preparing for the future
In the last few years the venture landscape has been transformed by an abundance of capital, higher valuations, an ever increasing number of start-ups and a growing number of investors. In this environment, focus became critically important and in 2017 Kleiner Perkins initiated a restructuring process to return to its roots as a venture boutique focused on early stage companies. In early 2019, we successfully raised KP 18. With a new investing team of dedicated practitioners offering diverse and complementary backgrounds that span technology, operating, and investing, we will chart the next chapter of our history investing in brilliant entrepreneurs and bold ideas destined to make history. KPCB XVII, KPCB XVIII and DGF 3.

HISTORY

Tackling Global Trust Gaps with Science

In 2011, co-founders Ophir Gaathon, Jonathan Hodges, and Dirk Englund met as three PhDs at Columbia University studying the quantum characteristics of diamonds. A few years later at MIT, DARPA approached them with a critical problem in supply chain security: trusted physical identity of high-value components didn't exist. The team recognized that the quantum properties of microscopic diamonds made them uniquely suited for creating physical fingerprints for product and part traceability. From there, Dust Identity was born. Today, Dust is embedded in some of the most complex value streams for organizations leading initiatives centered around national security.

DUST Identity Gears Up For Growth With Expansion Of Executive Team & Board

Wednesday, 14 December 2022 09:00 AM

Topic: Management Changes Share this Article

The company adds significant operating and product leadership with supply chain expertise to meet increasing market demand for its Diamond Unclonable Security Tag (DUST) solutions.

BOSTON, MA / ACCESSWIRE / December 14, 2022 / DUST Identity, Inc., a leading authentication solution for physical objects, today announced the addition of two new executives to its leadership team. Roger Brown and Rod Schultz join as Chief Operating Officer and SVP, Product, respectively. Additionally, Ron Zoran joins as a member of the Board of Directors, and Arthur Stark has been brought in as a strategic advisor.

Using engineered diamond particles embedded in high-performance polymers, DUST gives physical "things" - products, parts, and packaging - an unclonable fingerprint to offer full tracking, indisputable authentication, tamper-free validation, and data transparency throughout the object's entire lifecycle. With deep expertise across supply chain, technology, retail, and cybersecurity, the company's strategic hires are well-positioned to propel DUST's cutting-edge solution to markets facing today's supply chain integrity and resiliency woes.

"Over the last few years, we've been focused on hardening our products and capabilities mainly in the context of defense applications. Now, we're taking our experience in closing trust gaps in complex value streams to other ecosystems," says Ophir Gaathon, co-founder and CEO of DUST. "Delivering trust in global supply chains is hard. Building resilient solutions to tackle those use cases requires exceptional teams and individuals with deep experience in a range of disciplines. Roger, Rod, Ron, and Arthur have been building teams, products, and businesses for decades across a spectrum of industries. I'm excited to join forces, accelerate our growth, and better support our expanding footprint in the aerospace and microelectronics markets."

Roger Brown - Chief Operating Officer

Brown joined DUST after 20 years at T-Mobile, where, as a member of the marketing leadership team, he led multiple large-scale functions, including customer management, device portfolio, supply chain, and device products. Before T-Mobile, Brown spent several years in business consulting with Arthur Andersen LLP after earning his MBA from the University of Washington.

Rod Schultz - SVP, Product

For nearly 25 years, Schultz has held engineering and product roles at Cisco, Apple, Adobe, and, most recently, Zoom. As he grew his career at these companies, he developed expertise in designing and building systems that enable business models and SaaS applications to be distributed, protected, and monetized. Most recently, in 2020, during the height of the pandemic, Schultz joined Zoom as Head of Product Security and Privacy. He set the vision and roadmap for security and privacy for products, infrastructure, marketplace applications, and data protection to meet the company's growing demands as it became the connectivity fabric of society during the Covid-19 pandemic.

Ron Zoran - Board Member

Zoran brings over 20 years of security experience to the DUST Identity community. He has held several positions at CyberArk since its inception, overseeing the company's growth from a startup to a multi-billion dollar publicly traded company. Most recently, he served as CyberArk's Chief Revenue Officer, leading the company's global sales function.

Arthur Stark - Advisor

Stark concluded a 40-year career as President of Bed Bath & Beyond in 2018 upon being unanimously elected to a pro bono role in a global advocacy organization. Stark is the founder and chairman of Stark Enterprises LLC, a strategic advisory and venture capital practice advising the founders and CEOs of various companies concerning business development, market positioning, organizational design, strategy, and funding. He also holds Senior Advisory Board positions for Jefferies and Vintage Partners.

Oh, look! BRENT SNOWCROFT from SNOWCROFT GROUP and ATLANTIC COUNCIL is/was on the COMPENSATION COMMITTEE of QUALCOMM too. How neat!

I see JEFFREY A. JACOBS, Sara Jacobs' OTHER uncle, is/was EVP and CHIEF MARKETING OFFICER of QUALCOMM back in 2009.

Yo, I wonder if that JEFFREY JACOBS knows THIS Jeffrey Jacobs, who joined APOLLO GLOBAL MANAGEMENT in 2019 as a PARTNER and OVERSEES GLOBAL 3RD PARTY INSURANCE.

“He has worked on insurance balance sheet management throughout his time at Apollo, initially acting as CIO of APOLLO INSURANCE SOLUTIONS GROUP, with PRIMARY PORTFOLIO MANAGEMENT RESPONSIBILITY for ATHENE.

(That’s who owns Justin O’Keefe, folks.)

Before JEFFREY JACOBS joined Apollo, he “was GLOBAL CIO and LEAD PORTFOLIO MANAGER for BLACKROCK FINANCIAL INSTITUTIONS GROUP (FIG), where he was responsible for setting…

…GLOBAL MACRO INVESTMENT STRATEGY ACROSS ALL MARKETS, as well as STRATEGIC DIRECTION AND GROWTH of BLACKROCK FIG BUSINESS.”

Jeff is also “a BOARD MEMBER for the SPECIAL OPERATORS TRANSITION FOUNDATION, helping transition SPECIAL OPERATIONS FORCES VETERANS into PRIVATE SECTOR CAREERS.”

He’s on the board of THE NATURE CONSERVANCY too, folks. No big deal.🤣

Gosh, it’d be a shame if they were related… because JEFFREY JACOBS would go PERFECTLY WELL with JAMSHID EHSANI, PARTNER & HEAD OF GLOBAL PRINCIPAL STRUCTURED FINANCE at APOLLO GLOBAL MANAGEMENT!

Especially since before EHSANI came to AGM in 2010, he served in leadership positions for SWISS RE, UBS and THE WORLD BANK, and served as GLOBAL HEAD of DERIVATIVES AND EMERGING MARKETS SALES & STRUCTURING at CITIGROUP, as well as…

…PRESIDENT & CEO of MARSH MCLENNAN SECURITIES and MMC ENTERPRISE RISK MANAGEMENT.

(Marsh McLennan was involved in the Hurricane Helene and Duke Energy weather modification terrorism and dam flooding attack against WESTERN NC RESIDENTS, and the disaster relief sabotage by FEMA/GCHQ/IDF/MOSSAD/CADMUS/BOOZ ALLEN/etc.)

Dr. Paul E. Jacobs and Jeffrey A. Jacobs are the sons of Dr. Irwin Mark Jacobs, a director of the Company. Dr. Paul Jacobs serves as our Chairman and Chief Executive Officer (CEO). Dr. Paul Jacobs was compensated as described below under the heading "Executive Compensation and Related Information."

Dr. Irwin Mark Jacobs serves as a director of the Company. Dr. Irwin Jacobs served as an executive officer of the Company through March 3, 2009 and earned $321,111 in base salary during fiscal 2009.

Jeffrey A. Jacobs served as Executive Vice President and Chief Marketing Officer through July 8, 2009 and earned $169,714 in base salary during fiscal 2009.

Duane A. Nelles's son, Duane A. Nelles III, serves as Vice President, Business Development. During fiscal 2009, Duane A. Nelles III earned $227,307 in base salary and $107,000 in cash incentives and received a stock option grant for 11,500 shares of our stock at an exercise price of $34.99 per share and a second grant for 20,000 shares at an exercise price of $41.36 per share.

Steven R. Altman's brother, Jeffrey S. Altman, serves as Vice President, Business Development. Jeffrey Altman earned $185,423 in base salary and $45,000 in cash incentives during fiscal 2009 and received a stock option grant for 3,500 shares of our common stock at an exercise price of $34.99 per share and a second grant for 5,500 shares at an exercise price of $41.36 per share.

COMPENSATION COMMITTEE REPORT

The Compensation Committee reviewed and discussed the Compensation Discussion and Analysis (CD&A) with management. Based on this review and discussion, the Compensation Committee recommended to the Board that the CD&A be included in our 2010 Proxy Statement.

COMPENSATION COMMITTEE

Stephen M. Bennett, Chair
Brent Scowcroft
Marc I. Stern

COMPENSATION DISCUSSION AND ANALYSIS

In this section we discuss and analyze our compensation program and the specific amounts of compensation paid to our Chief Executive Officer (CEO), Chief Financial Officer (CFO) and the other three most highly compensated executive officers for fiscal 2009. Collectively, we refer to these individuals as the "Named Executive Officers" or the "NEOs." They are:

- Dr. Paul E. Jacobs, Chairman and CEO, has 19 years of service with Qualcomm and has been CEO since July 2005 and Chairman since March 2009.
- Mr. William E. Keitel, Executive Vice President (EVP) and CFO, has 13 years of service with Qualcomm and has been CFO since February 2002.
- Mr. Steven R. Altman, President, has 20 years of service with Qualcomm and has been President since July 2005.
- Mr. Len J. Lauer, EVP and Chief Operating Officer (COO), has 3 years of service with Qualcomm and had been COO since August 2008. In December 2009, Mr. Lauer submitted his resignation from his positions with the Company.
- Mr. Steven M. Mollenkopf, EVP and President, Qualcomm CDMA Technologies (QCT), has 15 years of service with Qualcomm and has been President, QCT since August 2008.

Jeffrey Jacobs
El Segundo, United States of America
Partner
Jeff oversees the Global 3rd Party Insurance business, with an emphasis on investment policy and themes, as well as client portfolio and relationship management. He has worked on insurance balance sheet management throughout his time at Apollo, initially acting as CIO of Apollo Insurance Solutions Group (with primary portfolio management responsibility for Athene), and serves on the investment committee of Apollo Aligned Alternatives.
Prior to joining Apollo in 2019, Jeff was Global CIO and Lead Portfolio Manager of the Financial Institutions Group at BlackRock, where he was responsible for setting global macro investment strategy across all markets, as well as strategic direction and growth of the Global FIG business. In this capacity he led portfolio management teams in the US, London, Japan, and Hong Kong, and was responsible for creating appropriate investment strategies across regulatory environments and widely varied insurance balance sheets. He was a founding member of the FIG team at BlackRock.
Jeff is a member of the board of the Special Operators Transition Foundation, an organization committed to helping Special Operations Forces veterans transition into private sector careers, and previously served as a Trustee and board member of The Nature Conservancy of Eastern New York. Jeff

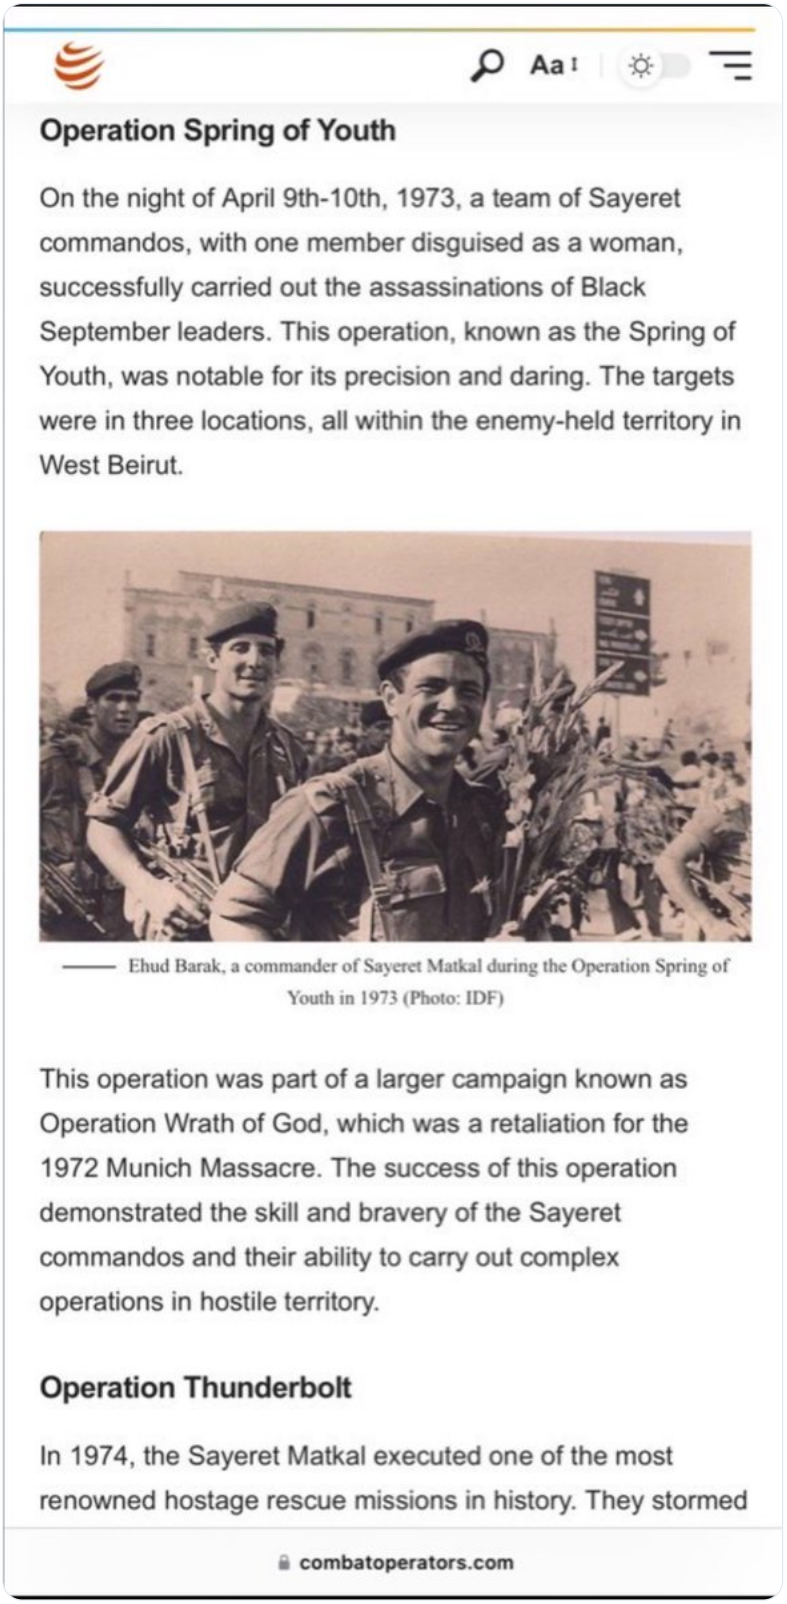
jonathan netanyahu



Operation Spring of Youth

On the night of April 9th-10th, 1973, a team of Sayeret commandos, with one member disguised as a woman, successfully carried out the assassinations of Black September leaders. This operation, known as the Spring of Youth, was notable for its precision and daring. The targets were in three locations, all within the enemy-held territory in West Beirut.

This operation was part of a larger campaign known as Operation Wrath of God, which was a retaliation for the 1972 Munich Massacre. The success of this operation demonstrated the skill and bravery of the Sayeret commandos and their ability to carry out complex operations in hostile territory.

Operation Thunderbolt

In 1974, the Sayeret Matkal executed one of the most renowned hostage rescue missions in history. They stormed

Now, now… let's not rush to any conclusions here. We should at least give him a chance to defend himself and discuss it with him in person, preferably at his home.
